implementing a method, said program for directing a device to perform the steps of:
determining a first value for ~~an~~ a parameter of a credit account;
determining a second value for the parameter;
calculating a payment, wherein the payment is based on a modification of the parameter
from the first value to the second value; and
providing an offer to a customer associated with the credit account, wherein the offer
comprises an offer to provide the payment to the customer if the customer agrees to the
modification of the parameter.

63. (PREVIOUSLY PRESENTED) A method, comprising:
determining that a customer associated with a credit account is dissatisfied with the credit account;
determining at least one term of the credit account; and
presenting the customer with an offer to modify the at least one term of the credit account.

64. (PREVIOUSLY PRESENTED) The method of claim 63, further comprising:
determining a modification to the at least one term of the credit account;
and wherein the step of presenting comprises:
presenting the customer with an offer to modify by the determined modification the at least one term of the credit account.

65. (PREVIOUSLY PRESENTED) The method of claim 63, further comprising:
receiving from the customer a requested modification to the at least one term of the credit account.

66. (PREVIOUSLY PRESENTED) The method of claim 65, further comprising:
evaluating the requested modification in order to determine whether to accept or reject the modification; and
transmitting to the customer, based on the evaluation, at least one of an acceptance and a rejection of the requested modification.

67. (PREVIOUSLY PRESENTED) The method of claim 66, further comprising:
modifying the at least one selected term by the modification if an acceptance is transmitted.

68. (PREVIOUSLY PRESENTED) The method of claim 66, further comprising:
determining an alternate modification based on the requested modification if a rejection is transmitted; and
transmitting to the customer the alternate modification.

69. (PREVIOUSLY PRESENTED) The method of claim 63, wherein the determination that a customer is dissatisfied with the credit account is based on receiving, from the customer, a request to cancel the account.

70. (PREVIOUSLY PRESENTED) The method of claim 63, further comprising:
determining a payment to offer to the customer in exchange for modifying the at least one term; and
wherein the offer to modify the at least one term of the credit account includes an offer of the payment.

71. (PREVIOUSLY PRESENTED) The method of claim 64, further comprising:
determining information associated with the customer, wherein the modification is at least based on the information associated with the customer.

72. (PREVIOUSLY PRESENTED) The method of claim 70, wherein the information associated with the customer comprises at least one of a past payment history for the credit account, information obtained from a credit reporting agency, and an income of the customer.

73. (PREVIOUSLY PRESENTED) An apparatus, comprising:

a storage device; and

a processor in communication with the storage device,

the storage device storing a program for controlling the processor; and

the processor operative with the program to:

determine that a customer associated with a credit account is dissatisfied with the credit account;

determine at least one term of the credit account; and

present the customer with an offer to modify the at least one term of the credit account.

74. (PREVIOUSLY PRESENTED) A medium encoded with a program for implementing a method, said program for directing a device to perform the steps of:

determining that a customer associated with a credit account is dissatisfied with the credit account;

determining at least one term of the credit account; and

presenting the customer with an offer to modify the at least one term of the credit account.
